

PALACON SAFETY SHOWER UNIT

EMERGENCY SAFETY SHOWER FOR MOBILE AND REMOTE WORKSITES

FUNCTION AND FEATURES

■ Fully self contained

Safety shower and eye wash unit capable of a full 15 min flushing in compliance with AS4775.

■ Mobile Unit

Skid mounted with 3-way forklift pockets for easy transport.

■ Solar or 240V options

Units can be provided with solar panels and battery, or 240V caravan external style plug.

■ Indicator lighting

Green LED lighting provides assistance with locating the unit.

■ AS4775 Compliant

The mobile unit complies with AS4775 Standards for emergency shower equipment.

■ Robust Construction

Stainless steel tank and pipework with galvanised steel frame.

PRODUCT DETAILS

Exposure of workers to hazardous substances in the workplace, particularly corrosives and alkalis also occurs on many remote and mobile worksites. Delaying treatment, even for a few seconds may result in severe injury.

Access to an emergency shower in these circumstances to provide immediate on the spot decontamination to flush away substances that can cause injury is crucial. However, a plumbed or pumped potable flushing fluid source is not always available to allow emergency fixtures to be connected, potentially leaving workers and employers exposed to risk.

The mobile self-contained emergency shower provides you the confidence in carrying out tasks knowing that your emergency needs are taken care of and are right by your side.

FEATURES

12 Volt Palacon Solar Safety Shower

Model: **AV-1250L-12V Palacon**

- Manufactured to AS4775-2007
- Stainless steel 1250 L water tank
- Stainless steel pipework
- Cyclone rated
- Shower head
- Eye/Face wash
- 130 watts solar panel
- 12 volt/100 amp hour deep cycle battery
- Battery management & Battery level display unit
- Main isolator switch
- Pump run light (red)
- Galvanised steel frame
- 3-way forklift pockets
- Green LED location light
- Water level indicator
- Fill/Breather point
- Safety signage
- Transport spec: 1200Lx1000Wx1500H - 250kg

Options

- Insulated shower top pipe
- Insulated tank blanked
- 12V unit can also have a 240V Ctex charger

240V Palacon Safety Shower

Model: **AV-1250L-240V Palacon**

- Manufactured to AS4775-2007
- Stainless steel 1250 L water tank
- Stainless steel pipework
- Cyclone rated
- Shower head
- Eye/Face wash
- 240v pressure water pump
- Caravan external style 240v plug
- Galvanised steel frame
- 3-way forklift pockets
- Green LED location light
- Water level gauge
- Fill/Breather point
- Safety signage
- Transport spec: 1200Lx1000Wx1500H-225kg
